Greg,
I wanted to give you a quick update concerning the additional site access effort. To date we have 3 signed access agreements and 1 Declined. We have elected to use the solar panel option (b) (6) in preparing the access agreements we notice 3 of the properties are rentals. Would you like for us to certify mail access agreements to these owners? For the remaining properties we left copies of the agreements along with contact information.

It does not appear that 222 NE 29th Street exists. We could not find anything in the tax database or on the ground in the field. Would you like for me to email Dan Oser this information? Our plan is to make at least one more trip later this week. If you need anything else please let me know. Thanks.
